TRIO'S HIV PATIENT REGISTRY

Virology and liver diseases were the first focus of Trio Health and have continued to be a key element of our portfolio.

The Trio Health Team Continues to author peer-reviewed real-world research in the virology space, and is seen as an industry leader for real-world HIV and Hepatitis B/C patient insights.

**OVER 89,000 HIV
PATIENTS FROM 12
SITES ACROSS THE U.S.**

**29 PEER REVIEWED
PUBLICATIONS ON HIV**

A LOOK INTO TRIO'S HIV PATIENT REGISTRY

OUR COMPETITIVE ADVANTAGE: EMR NIGHTLY FILES + RAPID CHART PULLS

SAME DAY PATIENT INSIGHTS

Trio receives structured EMR data via a nightly file, ensuring access to insights the same day as a patient's office visit

→ **3,500+** patient updates received each night

REAL-TIME ACCESS TO PATIENT CHARTS

Scribes have real-time, remote EMR access to enter all data with no burden or dependency on the physician or practice

→ **20+** clinically trained scribes, onshore and offshore

SPEED & EFFICIENCY

Trio's Clinically Trained Scribes process over 5,000 office visit notes per week

→ **390,000** forms completed

REGULATORY-GRADE DATA

All data captured via SmartForms can be validated back to the source document or physician, as well as peer-reviewed

→ **200+** publications to date. See triohealth.com/publications

OUR DISEASE COVERAGE

Trio's coverage expands across allergy, asthma, immunology, rare disease, rheumatic diseases, virology, and cardiovascular diseases.
